ROMA PAIN DAYS (#RPD5) *Not Only Science*

You are kindly invited to the Roma Pain Days 2025 (#RPD5), a congress that is increasingly appreciated and is becoming a well-established cultural and educational tradition. After the success of the last edition, which attracted around 2000 participants, the Fondazione Paolo Procacci Executive Board is pleased to announce it again. The event will take place on **April 10-12, 2025**, at the new venue, the Shangri-La Hotel. As with previous editions, it will be a hybrid event, ensuring professional growth opportunities for colleagues who are unable to attend in person in Rome.

The scientific program will be truly intriguing. One of the Congress Center rooms will be fully dedicated to "Meet-the-Expert" (MtE) sessions. During these sessions, a Faculty Member will provide a presentation and engage participants in discussion to clarify complex concepts. This format will make the congress more interactive, allowing the audience to actively participate in disseminating updated scientific knowledge. The "Experts" involved will be leading figures recognized internationally for the impact of their research. The Scientific Program Committee (SPC) is confident that this initiative will be highly appreciated by both in-person and online participants. The Fondazione Paolo Procacci is delighted to offer an optimal platform for open discussion, enabling colleagues to engage with real experts and acquire knowledge to enhance their clinical skills.

As in previous editions, the auditorium will be partially dedicated to sponsored sessions. These sessions are vital for the ethical dissemination of essential messages related to improved therapy. The program promises to be engaging, as it has been in the past, and the organizers are confident in the scientific success of the congress.

Fondazione Paolo Procacci is grateful to all the Members of the Scientific Program Committee (SPC), the Local Organizing Committee (LOC), and the international network that supports this initiative, with special thanks to all our Sponsors. Their support makes the dissemination of new scientific advancements in Pain Medicine much easier.

We are excited to meet you, whether in person or online, at #RPD5.

Giustino Varrassi
President, Fondazione Paolo Procacci
